

Dear Sirs, K- LOVE radio serves 10,000's of thousands of listeners in my area. I have been listening to K-Love now for over 14 years and because of over 10 residential moves in 4 states we have found one friendly voice in each of the new communities we moved to.

Please do not make policy that will take K-Love off the FM band or be replaced by LPFM. K-LOVE provides essential positive messaging and music to the public at large. 100% of my radio time is listening to K-LOVE. I know many of my friends who do the same.

K-Love Radio is one of the most positive programming to be found on the airwaves please do not make decisions thast would remove it from FM access or service. Sincerely.

Brad Hostetler
